your vision, our mission

SHROPSHIRE AUDIO VISUAL

Shropshire Audio Visual is a full-service audio-visual equipment rental and multimedia staging and events company, servicing both local and national accounts.

We have a wealth of experience in producing, and hiring to, live events and our state of the art inventory and skilled technicians will give you the confidence, and presentation, to make your event a success.

WE AIM TO...

... ensure that your meetings, events and locations are fully managed, supported and supplied with the very best and latest technology.

Supported by our technical expertise and fully consultative approach, you can rest assured that your business will receive sound advice in obtaining the best value and best fit solution available.

We are dedicated to hiring out and delivering the highest quality AV services to meeting planners, corporations, and internationally recognized associations.

Whether planning a small business meeting, a large scale social event or a complex trade show, let our staff of creative, experienced professionals make your vision, our mission.

EVENT MANAGEMENT

The events we produce require effective audio, visual and video components to complete the intended experience. It is essential that our customers work with experts in the audio-visual field.

Our fully consultative approach enables us to provide a tailor-made package designed to meet your individual needs and everything we do is designed to seamlessly integrating the latest AV solutions into your event, providing a consistently excellent experience for both client and customer.

COMPLETE VIDEO SERVICE

We provide a complete service from capture to distribution and are specialist in:

HD Multi Camera Event Recording
Studio Editing
DVD/CD Duplication
Live Video Relay
Satellite Streaming Services
Event Project
Resource Management

OUR MISSION

"To provide tailored services to clients needs and to be respectful of budget, venue and event. To offer personal and professional support throughout. Producing a project from design to fruition."
